

STRENGTHS OF OUR BID

A UNICON FOR ALL THE PEOPLE

Our Association wants to organize a Unicon that hosts the world championships in all disciplines and at the same time to be a meeting between people and unicyclists.

This will be possible thanks to the concept of the “Unicon City”, a closed to traffic sports complex with all the facilities, and a big tent permanently open during the whole event, where riders can practice but also socialize with other people, creating more than a sporting event.

In this place, all kinds of workshops and conferences will take place! We will also be organizing noncompetitive events such as Muni rides, Distance, Street, with the sole purpose of sharing and have fun.

A UNICON FOR ALL BUDGETS

To get a more popular Unicon, we believe it is important to adjust the budget and thus achieve the maximum possible participation. With all this, we are realistic and we believe we can get a registration price for the Unicon for about 110€ for competitors (60€ non-competitors). We also believe that we must provide budget accommodations to the participants. To do this, we are in contact with two schools in the area, where we can accommodate approximately 800 people at a very affordable price. We have 620 spaces in hostels in the area and 150 spaces for camper vehicles. Therefore we will offer 1570 cheap accommodation spots and countless other options, hoping to surpass the participation of 2000 people. The Anoeta Sports City/"Unicon City" will have a restaurant with the capacity to provide hundreds of daily menus for around 9€/each.

A UNICON... AND VACATIONS

Donostia/San Sebastian is a perfect destination to spend your holidays. San Sebastian's picturesque shoreline makes it a popular beach resort. The seaside environment is enhanced by hilly surroundings that are easily accessible. Besides, its surroundings offer endless possibilities: the Basque coast is an international leader in the world of surfing with the town of Mundaka, which is a world renowned spot for its surfing scene, the San Fermines bull chase in Pamplona, the famous Guggenheim Museum in Bilbao, vineyards and wineries in La Rioja, the Pyrenees Mountains... In the Basque Country the tradition, cuisine, beaches, cosmopolitan cities and rural areas are all blended together.
